

Camellia  *Creative*

Virtual Interior Design Services

With this service, Camellia-Creative offers an affordable alternative to traditional on-site interior design. In this format, the interior design recommendations and plans are all created via the internet and there are no personal visits to your location. While this service is more limited than on-site design, it is a popular method for general planning and decorating.

HOW DOES IT WORK? Below are three price options for this service. In each case, you initiate the job with an email to us at camelliacreatedesign@gmail.com or call (229)234-2213. If you know which price option you want, you simply let us know. However, when we make the initial contact with you, we'll discuss your desires and goals that will help us to guide you to the right service. All plans, suggestions, furniture and accessory options and other design recommendations are sent electronically so you can be ANYWHERE!! Each option price below is for one room only.
